

Warranty Subcontractor Magic Link

A **Warranty Magic Link** is a secure, unique **URL or link** generated by a warranty management system that allows users—such as managers or subcontractors—to access specific warranty claims or related information directly without needing to log into the system manually.

This feature simplifies the process of viewing, updating, or approving warranty requests while maintaining security and traceability.

For Admin/Manager - Here is the video that shows where the Magic Link can be found:

After copying the Magic Link, you can open it in your **browser**.

Steps for using the Magic Link are outlined here. [Magic link.pdf](#)

For Subcontractor - Video example of the Email received by the Subcontractor to notify them of a new warranty assignment:

After assigning a Subcontractor, the Subcontractor will receive an **Email notification** at their email address informing them of a **New Warranty Assignment**. The email will also include a **link**

to their specific warranty assignment. [Example Email sent to Subcontractor.pdf](#)
